

Book Creator

Book Creator is an App that allows students to create, save and upload books/videos into multiple sources. These books can contain text, audio, video, image files.

I have used this app to create videos of the students reading and sharing stories with each other.

This is a 'library' of all the books made.
+ create a new book
i – edit the information and delete the book
Upload and share book is where the book can be shared as a file for iBooks, a PDF or video.

Scroll across the screen (left and right) to access all the books.

+
add a file – picture, video, take a photo from camera roll, video, audio recording.

i
Information about the file you have on the page. You can edit the colour and size of Text and delete items.

My Books
Takes you to the 'library' with all your books.

Upload the book to a range of sources. The books can be emailed but will only be sent as PDF

Pages
Allows you to view all the pages in the book. You can move the sequence of the pages and delete pages quickly.
