# Popplet

Popplet is an App that allows students to create mindmaps. They can add 'Popples' (squares) when brainstorming. plays. Within each Popple, students can add text, pictures, and their own drawing

Adding a new mind map.

List of the saved Popplets on the iPad.

This will be the name of the mindmap.

Colour squares will be the outline colour of the Popples (these can be changed).
home
Takes the user back to the
first screen with the save
Popplets.
